SUBJECT INDEX

Active control
Neural Network for Structure Control, H. M. Chen, K. H. Tsai, G. Z. Qi, J. C. S. Yang and F. Amini, CP Apr. 95, p168-176.

Algorithms
Automatic Fire—Code Checking Using Expert-System Technology, Ethymios A. Delis and Alex Delis, CP Apr. 95, p141-156.

Evolution Program for Design of Rectilinear Branched Networks, J. W. Davidson and I. C. Goulter, CP Apr. 95, p112-121.

Extracting Topological Relationships from Wire-Frame CAD Model, Raghavan Kunigahalli, Jeffrey S. Russell and Dharmaraj Veeramani, CP Jan. 95, p29-42.

Processing of Constraints in Transportation Network Design Problem, Yihua Xiong and Jerry B. Schneider, CP Jan. 95, p21-28.

Sequencing for Concrete Placement Using RAG—CAD Data Structure, Raghavan Kunigahalli and Jeffrey S. Russell, CP July 95, p216-225.

Artificial intelligence
Design-Integrated Process Planner for Rebar Placement, Md. Salim and Leonhard E. Bernold, CP Apr. 95, p157-167.

Geometric-Based Reasoning System for Project Planning, A. A. Morad and Y. J. Beliveau, CP Jan. 94, p52-71.

Modeling Initial Design Process Using Artificial Neural Networks, Abhijit Mukherjee and Jayant M. Deshpande, CP July 95, p194-200.

Principled Approach to Design of Hierarchical Abstractions, Chee-Kiong Soh, Ai-Kah Soh and Kum-Yew Lai, CP Apr. 95, p177-189.

Qualitative Geometric Reasoner for Integrated Design, Paul S. Chinowsky and Kenneth F. Reinschmidt, CP Oct. 95, p250-258.

Using Design Intent for Interpreting Brand-Name-or-Equal Specifications, Jesus M. De La Garza and Gaye A. Oralkan, CP Jan. 95, p43-56.

ASCE Policy
A Case for a Standards of Practice for Computing in Civil Engineering, Charles S. Hodge, CP Oct. 95, p227-228.

ASCE Publications
Editorial, James G. Jacobi, CP Apr. 95, p97-98.

Automation
Automatic Fire—Code Checking Using Expert-System Technology, Ethymios A. Delis and Alex Delis, CP Apr. 95, p141-156.

The Circle: Architecture for Integrating Software, Martin Fischer and John Kunz, CP Apr. 95, p122-133.

COCSY I: CAM-Oriented CAD System, Ronie Navon, CP Oct. 95, p236-243.

Simulation of Automated Data Collection in Buildings, Ian N. Davidson and Miroslaw J. Skibniewski, CP Jan. 95, p9-20.

Bars
Design-Integrated Process Planner for Rebar Placement, Md. Salim and Leonhard E. Bernold, CP Apr. 95, p157-167.

Bridge construction
Bridge Planning Using GIS and Expert System Approach, Amin Hammad, Yoshito Itoh and Takayuki Nishido, CP July 93, p278-295.

Bridges, truss
Vibration Signature Analysis Using Artificial Neural Networks, S. V. Barai and P. C. Pandey, CP Oct. 95, p259-265.

Centroid
Accurate Polygon Centroid Computation Using ARC/INFO GIS, J. J. Warwick and S. J. Haness, CP July 93, p388-392.

Civil engineering
Editorial, James G. Jacobi, CP Apr. 95, p97-98.

Editorial - A Call for Quality in Engineering Business, Robert W. Mooney, CP July 95, p191-193.

Civil engineers
A Case for a Standards of Practice for Computing in Civil Engineering, Charles S. Hodge, CP Oct. 95, p227-228.

Clay liners
Modeling Soil Correlations Using Neural Networks, Anthony T. C. Goh, CP Oct. 95, p275-278.

Codes
Automatic Fire—Code Checking Using Expert-System Technology, Ethymios A. Delis and Alex Delis, CP Apr. 95, p141-156.

Cohesionless soils
Computation of Dynamic Passive Earth Pressure Using LISP, Ernest E. Morrison and Robert M. Ebeling, CP Oct. 95, p285-291.

Computation
Accurate Polygon Centroid Computation Using ARC/INFO GIS, J. J. Warwick and S. J. Haness, CP July 93, p388-392.

Computer aided drafting (CAD)
Pipeline Planning System, Pei-yu Huang, James E. Diekmann and Saeed M. Fenis, CP Apr. 95, p134-140.

Qualitative Geometric Reasoner for Integrated Design, Paul S. Chinowsky and Kenneth F. Reinschmidt, CP Oct. 95, p250-258.

Sequencing for Concrete Placement Using RAG—CAD Data Structure, Raghavan Kunigahalli and Jeffrey S. Russell, CP July 95, p216-225.

Computer aided manufacturing
COCSY I: CAM-Oriented CAD System, Ronie Navon, CP Oct. 95, p236-243.

Computer analysis
Computation of Dynamic Passive Earth Pressure Using LISP, Ernest E. Morrison and Robert M. Ebeling, CP Oct. 95, p285-291.

Computer applications
Accurate Polygon Centroid Computation Using ARC/INFO GIS, J. J. Warwick and S. J. Haness, CP July 93, p388-392.

Design Rationale for Computer-Supported Conflict Mitigation, Feniosky Peña-Mora, Duvvuru Sriram and Robert Logcher, CP Jan. 95, p57-72.

Editorial, James G. Jacobi, CP Apr. 95, p97-98.

Principled Approach to Design of Hierarchical Abstractions, Chee-Kiong Soh, Ai-Kah Soh and Kum-Yew Lai, CP Apr. 95, p177-189.

Using Technology to Improve Delphi Method, Francis T. Hartman and Andrew Baldwin, CP Oct. 95, p244-249.

Computer graphics
COCSY I: CAM-Oriented CAD System, Ronie Navon, CP Oct. 95, p236-243.

Computer programming
Real-Time Software Development with Formal Models, John W. Baugh, Jr. and Wael M. Elseaidy, CP Jan. 95, p73-86.

Computer programming languages
Computation of Dynamic Passive Earth Pressure Using LISP, Ernest E. Morrison and Robert M. Ebeling, CP Oct. 95, p285-291.

Computer programs
Evolution Program for Design of Rectilinear Branched Networks, J. W. Davidson and I. C. Goulter, CP Apr. 95, p112-121.

Computer software
The Circle: Architecture for Integrating Software, Martin Fischer and John Kunz, CP Apr. 95, p122-133.

Comprehensive Software Library for Highway Noise Analysis, Roswell A. Harris, Louis F. Cohn and James H. Graham, CP Apr. 95, p101-111.

Improving the Design-Review Process: The Reviewer's Assistant, E. William East, Tim Roessler and Mark Lustig, CP Oct. 95, p229-235.

Real-Time Software Development with Formal Models, John W. Baugh, Jr. and Wael M. Elseaidy, CP Jan. 95, p73-86.

Computerization
A Case for a Standards of Practice for Computing in Civil Engineering, Charles S. Hodge, CP Oct. 95, p227-228.

Computerized design
COCSY I: CAM-Oriented CAD System, Ronie Navon, CP Oct. 95, p236-243.

Design-Integrated Process Planner for Rebar Placement, Md. Salim and Leonhard E. Bernold, CP Apr. 95, p157-167.

Extracting Topological Relationships from Wire-Frame CAD Model, Raghavan Kunigahalli, Jeffrey S. Russell and Dharmaraj Veeramani, CP Jan. 95, p29-42.

Pipeline Planning System, Pei-yu Huang, James E. Diekmann and Saeed M. Fenis, CP Apr. 95, p134-140.

Qualitative Geometric Reasoner for Integrated Design, Paul S. Chinowsky and Kenneth F. Reinschmidt, CP Oct. 95, p250-258.

Computers
A Case for a Standards of Practice for Computing in Civil Engineering, Charles S. Hodge, CP Oct. 95, p227-228.

Concrete placing
Sequencing for Concrete Placement Using RAG—CAD Data Structure, Raghavan Kunigahalli and Jeffrey S. Russell, CP July 95, p216-225.

Concrete, reinforced
Modeling Initial Design Process Using Artificial Neural Networks, Abhijit Mukherjee and Jayant M. Deshpande, CP July 95, p194-200.

Concrete slabs
Extracting Topological Relationships from Wire-Frame CAD Model, Raghavan Kunigahalli, Jeffrey S. Russell and Dharmaraj Veeramani, CP Jan. 95, p29-42.

Cone penetration tests
Modeling Soil Correlations Using Neural Networks, Anthony T. C. Goh, CP Oct. 95, p275-278.

Conflict
Design Rationale for Computer-Supported Conflict Mitigation, Feniosky Peña-Mora, Duvvuru Sriram and Robert Logcher, CP Jan. 95, p57-72.

Constraints
Processing of Constraints in Transportation Network Design Problem, Yihua Xiong and Jerry B. Schneider, CP Jan. 95, p21-28.

Construction
COCSY I: CAM-Oriented CAD System, Ronie Navon, CP Oct. 95, p236-243.

Simulation of Automated Data Collection in Buildings, Ian N. Davidson and Miroslaw J. Skibniewski, CP Jan. 95, p9-20.

Construction industry
Design-Integrated Process Planner for Rebar Placement, Md. Salim and Leonhard E. Bernold, CP Apr. 95, p157-167.

Construction materials
Using Design Intent for Interpreting Brand-Name-or-Equal Specifications, Jesus M. De La Garza and Gaye A. Oralkan, CP Jan. 95, p43-56.

Construction planning
Improving the Design-Review Process: The Reviewer's Assistant, E. William East, Tim Roessler and Mark Lustig, CP Oct. 95, p229-235.

Construction sites
Construction-Site Layout Using Annealed Neural Network, I-Cheng Yeh, CP July 95, p201-208.

Consulting services
Using Technology to Improve Delphi Method, Francis T. Hartman and Andrew Baldwin, CP Oct. 95, p244-249.

Damage assessment
Vibration Signature Analysis Using Artificial Neural Networks, S. V. Barai and P. C. Pandey, CP Oct. 95, p259-265.

Data collection
Simulation of Automated Data Collection in Buildings, Ian N. Davidson and Miroslaw J. Skibniewski, CP Jan. 95, p9-20.

Data handling
Sequencing for Concrete Placement Using RAG—CAD Data Structure, Raghavan Kunigahalli and Jeffrey S. Russell, CP July 95, p216-225.

Decision making
Use of Knowledge Graphs to Formalize Decisions in Preserving Pavements, Yung-Ching Shen and Dimitri A. Grivas, CP Oct. 93, p475-494.

Decision support systems
Pipeline Planning System, Pei-yu Huang, James E. Diekmann and Saeed M. Fenis, CP Apr. 95, p134-140.

Use of Knowledge Graphs to Formalize Decisions in Preserving Pavements, Yung-Ching Shen and Dimitri A. Grivas, CP Oct. 93, p475-494.

Delphi method
Using Technology to Improve Delphi Method, Francis T. Hartman and Andrew Baldwin, CP Oct. 95, p244-249.

Design
COCSY I: CAM-Oriented CAD System, Ronie Navon, CP Oct. 95, p236-243.

Design Rationale for Computer-Supported Conflict Mitigation, Feniosky Peña-Mora, Duvvuru Sriram and Robert Logcher, CP Jan. 95, p57-72.

Improving the Design-Review Process: The Reviewer's Assistant, E. William East, Tim Roessler and Mark Lustig, CP Oct. 95, p229-235.

Modeling Initial Design Process Using Artificial Neural Networks, Abhijit Mukherjee and Jayant M. Deshpande, CP July 95, p194-200.

Qualitative Geometric Reasoner for Integrated Design, Paul S. Chinowsky and Kenneth F. Reinschmidt, CP Oct. 95, p250-258.

Using Design Intent for Interpreting Brand-Name-or-Equal Specifications, Jesus M. De La Garza and Gaye A. Oralkan, CP Jan. 95, p43-56.

Design modifications
The Circle: Architecture for Integrating Software, Martin Fischer and John Kunz, CP Apr. 95, p122-133.

Dispersion relations
Neural Networks for Backcalculation of Moduli from SASW Test, Trefor P. Williams and Nenad Gucunski, CP Jan. 95, p1-8.

Dynamic loads
Neural Network for Structure Control, H. M. Chen, K. H. Tsai, G. Z. Qi, J. C. S. Yang and F. Amini, CP Apr. 95, p168-176.

Dynamic pressure
Computation of Dynamic Passive Earth Pressure Using LISP, Ernest E. Morrison and Robert M. Ebeling, CP Oct. 95, p285-291.

Earth pressure
Computation of Dynamic Passive Earth Pressure Using LISP, Ernest E. Morrison and Robert M. Ebeling, CP Oct. 95, p285-291.

Elastic moduli
Neural Networks for Backcalculation of Moduli from SASW Test, Trefor P. Williams and Nenad Gucunski, CP Jan. 95, p1-8.

Engineering education
A Case for a Standards of Practice for Computing in Civil Engineering, Charles S. Hodge, CP Oct. 95, p227-228.

Engineering profession
A Case for a Standards of Practice for Computing in Civil Engineering, Charles S. Hodge, CP Oct. 95, p227-228.

Estuaries
Prediction of Estuarine Instabilities with Artificial Neural Networks, John P. Grubert, CP Oct. 95, p266-274.

Evolution, development
Evolution Program for Design of Rectilinear Branched Networks, J. W. Davidson and I. C. Goulter, CP Apr. 95, p112-121.

Expert systems
Automatic Fire—Code Checking Using Expert-System Technology, Ethymios A. Delis and Alex Delis, CP Apr. 95, p141-156.

Bridge Planning Using GIS and Expert System Approach, Amin Hammad, Yoshito Itoh and Takayuki Nishido, CP July 93, p278-295.

Modeling Initial Design Process Using Artificial Neural Networks, Abhijit Mukherjee and Jayant M. Deshpande, CP July 95, p194-200.

Principled Approach to Design of Hierarchical Abstractions, Chee-Kiong Soh, Ai-Kah Soh and Kum-Yew Lai, CP Apr. 95, p177-189.

Finite element method
Vibration Signature Analysis Using Artificial Neural Networks, S. V. Barai and P. C. Pandey, CP Oct. 95, p259-265.

Fire safety
Automatic Fire—Code Checking Using Expert-System Technology, Ethymios A. Delis and Alex Delis, CP Apr. 95, p141-156.

Floors
Extracting Topological Relationships from Wire-Frame CAD Model, Raghavan Kunigahalli, Jeffrey S. Russell and Dharmaraj Veeramani, CP Jan. 95, p29-42.

Geographic information systems
Accurate Polygon Centroid Computation Using ARC/INFO GIS, J. J. Warwick and S. J. Haness, CP July 93, p388-392.

Bridge Planning Using GIS and Expert System Approach, Amin Hammad, Yoshito Itoh and Takayuki Nishido, CP July 93, p278-295.

Pipeline Planning System, Pei-yu Huang, James E. Diekmann and Saeed M. Fenis, CP Apr. 95, p134-140.

Geometry
Extracting Topological Relationships from Wire-Frame CAD Model, Raghavan Kunigahalli, Jeffrey S. Russell and Dharmaraj Veeramani, CP Jan. 95, p29-42.

Qualitative Geometric Reasoner for Integrated Design, Paul S. Chinowsky and Kenneth F. Reinschmidt, CP Oct. 95, p250-258.

Graphic techniques
Sequencing for Concrete Placement Using RAG—CAD Data Structure, Raghavan Kunigahalli and Jeffrey S. Russell, CP July 95, p216-225.

High strength concretes
HPC Strength Prediction Using Artificial Neural Network, Janusz Kasperkiewicz, Janusz Racz and Artur Dubrawski, CP Oct. 95, p279-284.

Highway planning
Bridge Planning Using GIS and Expert System Approach, Amin Hammad, Yoshito Itoh and Takayuki Nishido, CP July 93, p278-295.

Highways
Comprehensive Software Library for Highway Noise Analysis, Roswell A. Harris, Louis F. Cohn and James H. Graham, CP Apr. 95, p101-111.

Human-computer interaction
A Case for a Standards of Practice for Computing in Civil Engineering, Charles S. Hodge, CP Oct. 95, p227-228.

Hydraulic conductivity
Modeling Soil Correlations Using Neural Networks, Anthony T. C. Goh, CP Oct. 95, p275-278.

Hydraulics
Pipeline Planning System, Pei-yu Huang, James E. Diekmann and Saeed M. Fenis, CP Apr. 95, p134-140.

Hydrology
Accurate Polygon Centroid Computation Using ARC/INFO GIS, J. J. Warwick and S. J. Haness, CP July 93, p388-392.

Interconnected systems
The Circle: Architecture for Integrating Software, Martin Fischer and John Kunz, CP Apr. 95, p122-133.

Interfaces
Prediction of Estuarine Instabilities with Artificial Neural Networks, John P. Grubert, CP Oct. 95, p266-274.

Knowledge-based systems
Automatic Fire—Code Checking Using Expert-System Technology, Ethymios A. Delis and Alex Delis, CP Apr. 95, p141-156.

Geometric-Based Reasoning System for Project Planning, A. A. Morad and Y. J. Beliveau, CP Jan. 94, p52-71.

Modeling Initial Design Process Using Artificial Neural Networks, Abhijit Mukherjee and Jayant M. Deshpande, CP July 95, p194-200.

Principled Approach to Design of Hierarchical Abstractions, Chee-Kiong Soh, Ai-Kah Soh and Kum-Yew Lai, CP Apr. 95, p177-189.

Use of Knowledge Graphs to Formalize Decisions in Preserving Pavements, Yung-Ching Shen and Dimitri A. Grivas, CP Oct. 93, p475-494.

Laboratory tests
Modeling Soil Correlations Using Neural Networks, Anthony T. C. Goh, CP Oct. 95, p275-278.

Layout
Construction-Site Layout Using Annealed Neural Network, I-Cheng Yeh, CP July 95, p201-208.

Microcomputers
Comprehensive Software Library for Highway Noise Analysis, Roswell A. Harris, Louis F. Cohn and James H. Graham, CP Apr. 95, p101-111.

Model analysis
Neural Networks for River Flow Prediction, Nachimuthu Karunanithi, William J. Grenney, Darrell Whitley and Ken Bovee, CP Apr. 94, p201-220.

Modeling
Neural Networks for River Flow Prediction, Nachimuthu Karunanithi, William J. Grenney, Darrell Whitley and Ken Bovee, CP Apr. 94, p201-220.

Models
Design Rationale for Computer-Supported Conflict Mitigation, Feniosky Peña-Mora, Duvvuru Sriram and Robert Logcher, CP Jan. 95, p57-72.

Extracting Topological Relationships from Wire-Frame CAD Model, Raghavan Kunigahalli, Jeffrey S. Russell and Dharmaraj Veeramani, CP Jan. 95, p29-42.

Modeling Initial Design Process Using Artificial Neural Networks, Abhijit Mukherjee and Jayant M. Deshpande, CP July 95, p194-200.

Multiple regression models
Modeling Soil Correlations Using Neural Networks, Anthony T. C. Goh, CP Oct. 95, p275-278.

Negotiations
Design Rationale for Computer-Supported Conflict Mitigation, Feniosky Peña-Mora, Duvvuru Sriram and Robert Logcher, CP Jan. 95, p57-72.

Network design
Evolution Program for Design of Rectilinear Branched Networks, J. W. Davidson and I. C. Goulter, CP Apr. 95, p112-121.

Processing of Constraints in Transportation Network Design Problem, Yihua Xiong and Jerry B. Schneider, CP Jan. 95, p21-28.

Neural networks
Construction-Site Layout Using Annealed Neural Network, I-Cheng Yeh, CP July 95, p201-208.

HPC Strength Prediction Using Artificial Neural Network, Janusz Kasperkiewicz, Janusz Racz and Artur Dubrawski, CP Oct. 95, p279-284.

Modeling Initial Design Process Using Artificial Neural Networks, Abhijit Mukherjee and Jayant M. Deshpande, CP July 95, p194-200.

Modeling Soil Correlations Using Neural Networks, Anthony T. C. Goh, CP Oct. 95, p275-278.

Neural Network for Structure Control, H. M. Chen, K. H. Tsai, G. Z. Qi, J. C. S. Yang and F. Amini, CP Apr. 95, p168-176.

Neural Networks for Backcalculation of Moduli from SASW Test, Trefor P. Williams and Nenad Gucunski, CP Jan. 95, p1-8.

Neural Networks for River Flow Prediction, Nachimuthu Karunanithi, William J. Grenney, Darrell Whitley and Ken Bovee, CP Apr. 94, p201-220.

Prediction of Estuarine Instabilities with Artificial Neural Networks, John P. Grubert, CP Oct. 95, p266-274.

Processing of Constraints in Transportation Network Design Problem, Yihua Xiong and Jerry B. Schneider, CP Jan. 95, p21-28.

Roadway Seasonal Classification Using Neural Networks, A. Faghri and J. Hua, CP July 95, p209-215.

Vibration Signature Analysis Using Artificial Neural Networks, S. V. Barai and P. C. Pandey, CP Oct. 95, p259-265.

Noise control

Comprehensive Software Library for Highway Noise Analysis, Roswell A. Harris, Louis F. Cohn and James H. Graham, CP Apr. 95, p101-111.

Noise measurement

Comprehensive Software Library for Highway Noise Analysis, Roswell A. Harris, Louis F. Cohn and James H. Graham, CP Apr. 95, p101-111.

Nondestructive tests

Neural Networks for Backcalculation of Moduli from SASW Test, Trefor P. Williams and Nenad Gucunski, CP Jan. 95, p1-8.

Object-oriented languages

Simulation of Automated Data Collection in Buildings, Ian N. Davidson and Miroslaw J. Skibniewski, CP Jan. 95, p9-20.

Offshore structures

Principled Approach to Design of Hierarchical Abstractions, Chee-Kiong Soh, Ai-Kah Soh and Kum-Yew Lai, CP Apr. 95, p177-189.

Optimization

Construction-Site Layout Using Annealed Neural Network, I-Cheng Yeh, CP July 95, p201-208.

Evolution Program for Design of Rectilinear Branched Networks, J. W. Davidson and I. C. Goulter, CP Apr. 95, p112-121.

Passive pressure

Computation of Dynamic Passive Earth Pressure Using LISP, Ernest E. Morrison and Robert M. Ebeling, CP Oct. 95, p285-291.

Pavement condition

Use of Knowledge Graphs to Formalize Decisions in Preserving Pavements, Yung-Ching Shen and Dimitri A. Grivas, CP Oct. 93, p475-494.

Pavements

Neural Networks for Backcalculation of Moduli from SASW Test, Trefor P. Williams and Nenad Gucunski, CP Jan. 95, p1-8.

Use of Knowledge Graphs to Formalize Decisions in Preserving Pavements, Yung-Ching Shen and Dimitri A. Grivas, CP Oct. 93, p475-494.

Pipeline design

Pipeline Planning System, Pei-yu Huang, James E. Diekmann and Saeed M. Fenis, CP Apr. 95, p134-140.

Polygons

Accurate Polygon Centroid Computation Using ARC/INFO GIS, J. J. Warwick and S. J. Haness, CP July 93, p388-392.

Predictions

HPC Strength Prediction Using Artificial Neural Network, Janusz Kasperkiewicz, Janusz Racz and Artur Dubrawski, CP Oct. 95, p279-284.

Neural Networks for River Flow Prediction, Nachimuthu Karunanithi, William J. Grenney, Darrell Whitley and Ken Bovee, CP Apr. 94, p201-220.

Problem solving

Principled Approach to Design of Hierarchical Abstractions, Chee-Kiong Soh, Ai-Kah Soh and Kum-Yew Lai, CP Apr. 95, p177-189.

Processing

Design-Integrated Process Planner for Rebar Placement, Md. Salim and Leonhard E. Bernold, CP Apr. 95, p157-167.

Productivity

Design-Integrated Process Planner for Rebar Placement, Md. Salim and Leonhard E. Bernold, CP Apr. 95, p157-167.

Project management

Geometric-Based Reasoning System for Project Planning, A. A. Morad and Y. J. Beliveau, CP Jan. 94, p52-71.

Project planning

Design Rationale for Computer-Supported Conflict Mitigation, Feniosky Peña-Mora, Duvvuru Sriram and Robert Logcher, CP Jan. 95, p57-72.

Geometric-Based Reasoning System for Project Planning, A. A. Morad and Y. J. Beliveau, CP Jan. 94, p52-71.

Quality assurance

Editorial - A Call for Quality in Engineering Business, Robert W. Mooney, CP July 95, p191-193.

Quality control

Editorial - A Call for Quality in Engineering Business, Robert W. Mooney, CP July 95, p191-193.

Improving the Design-Review Process: The Reviewer's Assistant, E. William East, Tim Roessler and Mark Lustig, CP Oct. 95, p229-235.

Quality control - management

Editorial - A Call for Quality in Engineering Business, Robert W. Mooney, CP July 95, p191-193.

Real-time programming

Real-Time Software Development with Formal Models, John W. Baugh, Jr. and Wael M. Elseaidy, CP Jan. 95, p73-86.

Regression analysis

Roadway Seasonal Classification Using Neural Networks, A. Faghri and J. Hua, CP July 95, p209-215.

Reliability

Real-Time Software Development with Formal Models, John W. Baugh, Jr. and Wael M. Elseaidy, CP Jan. 95, p73-86.

Reviews

Improving the Design-Review Process: The Reviewer's Assistant, E. William East, Tim Roessler and Mark Lustig, CP Oct. 95, p229-235.

River flow

Neural Networks for River Flow Prediction, Nachimuthu Karunanithi, William J. Grenney, Darrell Whitley and Ken Bovee, CP Apr. 94, p201-220.

Road design

Bridge Planning Using GIS and Expert System Approach, Amin Hammad, Yoshito Itoh and Takayuki Nishido, CP July 93, p278-295.

Salinity

Prediction of Estuarine Instabilities with Artificial Neural Networks, John P. Grubert, CP Oct. 95, p266-274.

Sand

Modeling Soil Correlations Using Neural Networks, Anthony T. C. Goh, CP Oct. 95, p275-278.

Scale models

Neural Network for Structure Control, H. M. Chen, K. H. Tsai, G. Z. Qi, J. C. S. Yang and F. Amini, CP Apr. 95, p168-176.

Scheduling

Geometric-Based Reasoning System for Project Planning, A. A. Morad and Y. J. Beliveau, CP Jan. 94, p52-71.

Seasonal variations

Roadway Seasonal Classification Using Neural Networks, A. Faghri and J. Hua, CP July 95, p209-215.

Selection

Using Design Intent for Interpreting Brand-Name-or-Equal Specifications, Jesus M. De La Garza and Gaye A. Oralkan, CP Jan. 95, p43-56.

Simulation

Construction-Site Layout Using Annealed Neural Network, I-Cheng Yeh, CP July 95, p201-208.

Simulation of Automated Data Collection in Buildings, Ian N. Davidson and Miroslaw J. Skibniewski, CP Jan. 95, p9-20.

Specifications

Using Design Intent for Interpreting Brand-Name-or-Equal Specifications, Jesus M. De La Garza and Gaye A. Oralkan, CP Jan. 95, p43-56.

Spectral analysis

Neural Networks for Backcalculation of Moduli from SASW Test, Trefor P. Williams and Nenad Gucunski, CP Jan. 95, p1-8.

Stability

Prediction of Estuarine Instabilities with Artificial Neural Networks, John P. Grubert, CP Oct. 95, p266-274.

Stratified flow

Prediction of Estuarine Instabilities with Artificial Neural Networks, John P. Grubert, CP Oct. 95, p266-274.

Strength

HPC Strength Prediction Using Artificial Neural Network, Janusz Kasperkiewicz, Janusz Racz and Artur Dubrawski, CP Oct. 95, p279-284.

Structural control

Neural Network for Structure Control, H. M. Chen, K. H. Tsai, G. Z. Qi, J. C. S. Yang and F. Amini, CP Apr. 95, p168-176.

Real-Time Software Development with Formal Models, John W. Baugh, Jr. and Wael M. Elseaidy, CP Jan. 95, p73-86.

Structure reinforcement

Design-Integrated Process Planner for Rebar Placement, Md. Salim and Leonhard E. Bernold, CP Apr. 95, p157-167.

Surface waves

Neural Networks for Backcalculation of Moduli from SASW Test, Trefor P. Williams and Nenad Gucunski, CP Jan. 95, p1-8.

Surveys, data collection

Using Technology to Improve Delphi Method, Francis T. Hartman and Andrew Baldwin, CP Oct. 95, p244-249.

Teamwork

Using Technology to Improve Delphi Method, Francis T. Hartman and Andrew Baldwin, CP Oct. 95, p244-249.

Three-dimensional models

Geometric-Based Reasoning System for Project Planning, A. A. Morad and Y. J. Beliveau, CP Jan. 94, p52-71.

Traffic flow pattern

Roadway Seasonal Classification Using Neural Networks, A. Faghri and J. Hua, CP July 95, p209-215.

Traffic volume

Roadway Seasonal Classification Using Neural Networks, A. Faghri and J. Hua, CP July 95, p209-215.

Transportation networks

Processing of Constraints in Transportation Network Design Problem, Yihua Xiong and Jerry B. Schneider, CP Jan. 95, p21-28.

Vibration analysis

Vibration Signature Analysis Using Artificial Neural Networks, S. V. Barai and P. C. Pandey, CP Oct. 95, p259-265.

AUTHOR INDEX

Amini, F.
see Chen, H. M., CP Apr. 95, p168-176

Baldwin, Andrew
see Hartman, Francis T., CP Oct. 95, p244-249

Barai, S. V.
Vibration Signature Analysis Using Artificial Neural Networks, with P. C. Pandey, CP Oct. 95, p259-265

Baugh, John W., Jr.
Real-Time Software Development with Formal Models, with Wael M. Elseaidy, CP Jan. 95, p73-86

Beliveau, Y. J.
see Morad, A. A., CP Jan. 94, p52-71

Bernold, Leonhard E.
see Salim, Md., CP Apr. 95, p157-167

Bovee, Ken
see Karunanithi, Nachimuthu, CP Apr. 94, p201-220

Brenner, Brian
disc. (of Use of Knowledge Graphs to Formalize Decisions in Preserving Pavements, by Yung-Ching Shen and Dimitri A. Grivas, CP Oct. 93, p475-494), CP Jan. 95, p90

Chen, H. M.
Neural Network for Structure Control, with K. H. Tsai, G. Z. Qi, J. C. S. Yang and F. Amini, CP Apr. 95, p168-176

Chinowsky, Paul S.
Qualitative Geometric Reasoner for Integrated Design, with Kenneth F. Reinschmidt, CP Oct. 95, p250-258

Cohn, Louis F.
see Harris, Roswell A., CP Apr. 95, p101-111

Davidson, Ian N.
Simulation of Automated Data Collection in Buildings, with Miroslaw J. Skibniewski, CP Jan. 95, p9-20

Davidson, J. W.
Evolution Program for Design of Rectilinear Branched Networks, with I. C. Goulter, CP Apr. 95, p112-121

De La Garza, Jesus M.
Using Design Intent for Interpreting Brand-Name-or-Equal Specifications, with Gaye A. Oralkan, CP Jan. 95, p43-56

Delis, Alex
see Delis, Ethymios A., CP Apr. 95, p141-156

Delis, Ethymios A.
Automatic Fire—Code Checking Using Expert-System Technology, with Alex Delis, CP Apr. 95, p141-156

Deshpande, Jayant M.
see Mukherjee, Abhijit, CP July 95, p194-200

Diekmann, James E.
see Huang, Pei-yu, CP Apr. 95, p134-140

Dubrawski, Artur
see Kasperkiewicz, Janusz, CP Oct. 95, p279-284

Dueker, Kenneth J.
disc. (of Bridge Planning Using GIS and Expert System Approach, by Amin Hammad, Yoshito Itoh and Takayuki Nishido, CP July 93, p278-295), CP Jan. 95, p91

East, E. William
Improving the Design-Review Process: The Reviewer's Assistant, with Tim Roessler and Mark Lustig, CP Oct. 95, p229-235

Ebeling, Robert M.
see Morrison, Ernest E., CP Oct. 95, p285-291

Elseaidy, Wael M.
see Baugh, John W., Jr., CP Jan. 95, p73-86

Faghri, A.
Roadway Seasonal Classification Using Neural Networks, with J. Hua, CP July 95, p209-215

Fenis, Saeed M.
see Huang, Pei-yu, CP Apr. 95, p134-140

Fischer, Martin
The Circle: Architecture for Integrating Software, with John Kunz, CP Apr. 95, p122-133

Goh, Anthony T. C.
Modeling Soil Correlations Using Neural Networks, CP Oct. 95, p275-278

Goulter, I. C.
see Davidson, J. W., CP Apr. 95, p112-121

Graham, James H.
see Harris, Roswell A., CP Apr. 95, p101-111

Grenney, William J.
see Karunanithi, Nachimuthu, CP Apr. 94, p201-220

Greulich, Francis E.
disc. (of Accurate Polygon Centroid Computation Using ARC/INFO GIS, by J. J. Warwick and S. J. Haness, CP July 93, p388-392), CP Jan. 95, p88

Grivas, Dimitri A.
see Shen, Yung-Ching, CP Oct. 93, p475-494

Grubert, John P.
Prediction of Estuarine Instabilities with Artificial Neural Networks, CP Oct. 95, p266-274

Gucunski, Nenad
see Williams, Trefor P., CP Jan. 95, p1-8

Hammad, Amin
Bridge Planning Using GIS and Expert System Approach, with Yoshito Itoh and Takayuki Nishido, CP July 93, p278-295
disc: Kenneth J. Dueker, CP Jan. 95, p91
clo: CP Jan. 95, p91-92

Haness, S. J.
see Warwick, J. J., CP July 93, p388-392

Harris, Roswell A.
Comprehensive Software Library for Highway Noise Analysis, with Louis F. Cohn and James H. Graham, CP Apr. 95, p101-111

Hartman, Francis T.
Using Technology to Improve Delphi Method, with Andrew Baldwin, CP Oct. 95, p244-249

Heggen, Richard J.
disc. (of Neural Networks for River Flow Prediction, by Nachimuthu Karunanithi, William J. Grenney, Darrell Whitley and Ken Bovee, CP Apr. 94, p201-220), CP Oct. 95, p293

Hodge, Charles S.
A Case for a Standards of Practice for Computing in Civil Engineering, CP Oct. 95, p227-228

Hua, J.
see Faghri, A., CP July 95, p209-215

Huang, Pei-yu
Pipeline Planning System, with James E. Diekmann and Saeed M. Fenis, CP Apr. 95, p134-140

Itoh, Yoshito
see Hammad, Amin, CP July 93, p278-295

Jacobi, James G.
Editorial, CP Apr. 95, p97-98

Karunanithi, Nachimuthu
Neural Networks for River Flow Prediction, with William J. Grenney, Darrell Whitley and Ken Bovee, CP Apr. 94, p201-220
disc: Richard J. Heggen, CP Oct. 95, p293
clo: CP Oct. 95, p293

Kasperkiewicz, Janusz
HPC Strength Prediction Using Artificial Neural Network, with Janusz Racz and Artur Dubrawski, CP Oct. 95, p279-284

Kunigahalli, Raghavan
Extracting Topological Relationships from Wire-Frame CAD Model, with Jeffrey S. Russell and Dharmaraj Veeramani, CP Jan. 95, p29-42
Sequencing for Concrete Placement Using RAG—CAD Data Structure, with Jeffrey S. Russell, CP July 95, p216-225

Kunz, John
see Fischer, Martin, CP Apr. 95, p122-133

Lai, Kum-Yew
see Soh, Chee-Kiong, CP Apr. 95, p177-189

Logcher, Robert
see Peña-Mora, Feniosky, CP Jan. 95, p57-72

Lustig, Mark
see East, E. William, CP Oct. 95, p229-235

Mooney, Robert W.
Editorial - A Call for Quality in Engineering Business, CP July 95, p191-193

Morad, A. A.
Geometric-Based Reasoning System for Project Planning, with Y. J. Beliveau, CP Jan. 94, p52-71
disc: Arkady Retik, CP Oct. 95, p293-294

Morrison, Ernest E.
Computation of Dynamic Passive Earth Pressure Using LISP, with Robert M. Ebeling, CP Oct. 95, p285-291

Mukherjee, Abhijit
Modeling Initial Design Process Using Artificial Neural Networks, with Jayant M. Deshpande, CP July 95, p194-200

Navon, Ronie
COCSY I: CAM-Oriented CAD System, CP Oct. 95, p236-243

Nishido, Takayuki
see Hammad, Amin, CP July 93, p278-295

Oralkan, Gaye A.
see De La Garza, Jesus M., CP Jan. 95, p43-56

Pandey, P. C.
see Barai, S. V., CP Oct. 95, p259-265

Peña-Mora, Feniosky
Design Rationale for Computer-Supported Conflict Mitigation, with Duvvuru Sriram and Robert Logcher, CP Jan. 95, p57-72

Qi, G. Z.
see Chen, H. M., CP Apr. 95, p168-176

Racz, Janusz
see Kasperkiewicz, Janusz, CP Oct. 95, p279-284

Reinschmidt, Kenneth F.
see Chinowsky, Paul S., CP Oct. 95, p250-258

Retik, Arkady
disc. (of Geometric-Based Reasoning System for Project Planning, by A. A. Morad and Y. J. Beliveau, CP Jan. 94, p52-71), CP Oct. 95, p293-294

Roessler, Tim
see East, E. William, CP Oct. 95, p229-235

Russell, Jeffrey S.
see Kunigahalli, Raghavan, CP Jan. 95, p29-42
see Kunigahalli, Raghavan, CP July 95, p216-225

Salim, Md.
Design-Integrated Process Planner for Rebar Placement, with Leonhard E. Bernold, CP Apr. 95, p157-167

Schneider, Jerry B.
see Xiong, Yihua, CP Jan. 95, p21-28

Shen, Yung-Ching
Use of Knowledge Graphs to Formalize Decisions in Preserving Pavements, with Dimitri A. Grivas, CP Oct. 93, p475-494
disc: Brian Brenner, CP Jan. 95, p90
clo: CP Jan. 95, p90-91

Skibniewski, Miroslaw J.
see Davidson, Ian N., CP Jan. 95, p9-20

Soh, Ai-Kah
see Soh, Chee-Kiong, CP Apr. 95, p177-189

Soh, Chee-Kiong
Principled Approach to Design of Hierarchical Abstractions, with Ai-Kah Soh and Kum-Yew Lai, CP Apr. 95, p177-189

Sriram, Duvvuru
see Peña-Mora, Feniosky, CP Jan. 95, p57-72

Tsai, K. H.
see Chen, H. M., CP Apr. 95, p168-176

Veeramani, Dharmaraj
see Kunigahalli, Raghavan, CP Jan. 95, p29-42

Warwick, J. J.
Accurate Polygon Centroid Computation Using ARC/INFO GIS, with S. J. Haness, CP July 93, p388-392

disc: Francis E. Greulich, CP Jan. 95, p88
clo: CP Jan. 95, p88-89

Whitley, Darrell
see Karunanithi, Nachimuthu, CP Apr. 94, p201-220

Williams, Trefor P.
Neural Networks for Backcalculation of Moduli from SASW Test, with Nenad Gucunski, CP Jan. 95, p1-8

Xiong, Yihua
Processing of Constraints in Transportation Network Design Problem, with Jerry B. Schneider, CP Jan. 95, p21-28

Yang, J. C. S.
see Chen, H. M., CP Apr. 95, p168-176
